THE BRITISH STEEL PENSION SCHEME

Change of address form

Scheme communications are occasionally returned to the Pensions Office marked 'Not at this address'. When this happens in respect of an individual receiving a Scheme pension, we will carry out investigations to ensure that any pension is being paid to the correct recipient. If we are unable to contact the beneficiary, we will generally suspend pension payments for security reasons pending further investigations.

In order to avoid the possibility of pension payments being suspended, you should advise the Pensions Office of any changes to your address as soon as possible to ensure your pension continues to be paid.

For members not yet in receipt of a pension, the Pensions Office will not be able to keep you up-to-date on Scheme matters and your pension entitlement, without being advised of your current address.

So, if you move address, please let us know immediately by filling out this form. Please use BLOCK CAPITALS.
